What is the "Erasmus Plus- Student Mobility for traineeships"?

"Erasmus+ Mobility for traineeships" is a specific programme financed by the European Commission under the “Erasmus+” framework, which enables students to do a 2 to 12 month traineeship at a foreign enterprise or organization in another participating country. Students are granted € 350-400 per month by their Home University; the Accepting Institution is not therefore required to give students any financial support.

The Host Institution may provide an additional stipend or any other contribution, such as free meals or accommodation.

Traineeships must end by September 30th 2019.

What do companies interested in hosting an Erasmus+ trainee need to do?

If the Host Institution is willing to accept a student from the Università “G. d’Annunzio” di Chieti-Pescara for a traineeship under the Erasmus+ programme, it will be requested to complete, sign and stamp the document “Letter of Acceptance”.

At the beginning of the mobility a “learning agreement for traineeship” will be signed between the grant holder, the Hosting Institution and the sending University.

At the end of the traineeship, the Hosting Institution is required to fill out a document stating the period of traineeship (Certificate of Attendance) and the evaluation of the trainee (Transcript of Work).

Insurance coverage

Students are covered under the European Health System. Moreover, their Home University covers accident and third party insurance.
